REVERSE OSMOSIS

The Pentair GRO-350 R.O. System delivers worry-free water in a snap. The unique "click and enjoy" design simplifies cartridge exchange with technology certified to provide excellent water. The three-stage reverse osmosis system reduces many contaminants, including lead, fluoride, dissolved solids, and cysts.

- Application: Drinking Water
- Reduces more than 90% of all contaminants found in water
- Delivers high quality water that allows you to truly taste the flavor of beverages
- Color coded cartridges maintain proper filter sequence
- 3/8" push fittings for easy installation
- Effortless click-in cartridge change-outs
- High efficiency membrane technology delivers up to 50 gallons per day

(Optional Integrated booster pump for low pressure applications)
